EXECUTIVE DIRECTOR REPORT LEGISLATIVE REPORT #15 FOR 2011 SESSION MAY 2, 2011

[Senate Bill List](#) [House Bill List](#)
[Senate Committees](#) [House Committees](#)
[Senate Members](#) [House Members](#)

NOTE FROM EXECUTIVE DIRECTOR

2 weeks remain until adjournment

- The full Senate passed a \$200,000 increase in FF training. After conference committee decides on a few other items, it will go to the governor for his signature. It has to be completed by Friday at 6.
- Mandatory Consolidation appears to be dead for the year, and the study committee is not making any progress either. We will continue to monitor closely.
- The bill to extend the Federal Reimbursement Allowance for Medicaid payments to ambulance services has passed the senate and the House Budget Committee. It extends the law for another 5 years versus the Senate version of a 4 yr extension. No big difference to worry about. The full House now has to finalize the bill. The Federal Agency did approve the Ambulance FRA and it should begin July 1, 2011.
- Merger of Fire Investigators and Private Investigators Boards - The House version was heard in committee and may move out of committee on Monday. The training standards and certification program for instructors remains with the Division of Fire Safety. Thanks to the Division of Professional Registration director and staff for working with FSA in making changes to retain these programs in DPS.
- Representative Funderburk attached an amendment to HB737, which fixes a property tax problem created by sb711 passed a few years back. This bill was heard in the Senate Commerce Committee this week, but when voted on the sponsor of the bill stripped our language. We are working to get it attached to other bills and reattached to 737.

I will be highlighting in red any changes each week.

BUDGET

The full Senate Appropriations Committee, led by Senator Schaefer from Columbia, passed a \$200,000 increase in FF training. Final action will occur this week and the appropriation bills will be sent to the Governor. **After session, we will need to place calls into the Governors office asking for his support.**

FSA PRIORITIES

- **Division of Fire Safety Funding**

HB 488 -Gatschenberger- Requires driver's license examinations to only be administered in English and establishes a fee for taking the written portion of the examination or 20% of the \$15 fee to fund duties of the state fire marshal

Bill History:- Representative Gatschenberger heard his bill, which earmarks 20% of a \$15 fee, for taking a driver's test, to fund the duties of the State Fire Marshal's office. Jorgen worked on language with the House staff drafting the bill. It was heard in House Transportation. While there was no opposition to the bill, earmarking money is very controversial among the fiscal hawks and has an uphill climb. Thanks to Chief Randy Barnhop-Wentzville for testifying on behalf of the Fire Service in favor of the bill.

02-14-11 H Introduced not referred

HB 51 Taylor Authorizes a \$2 surcharge to be collected in all criminal cases involving a state traffic law violation to be disbursed equally for law enforcement and fire safety training.

Bill History: 3-11 referred to the House Public Safety Committee
2-21 Introduced, not yet referred
Jorgen worked on language with the House staff drafting the bill, and believes the final version should be introduced this week.

Introduced, not yet referred

- **RESIDENTIAL SPRINKLERS**

HB 46 Diehl

Repeals a conflicting statute regarding the installation of fire sprinkler systems and removes the December 31, 2011 expiration date for Section 67.281, RSMo.

Current law requires all builders of new homes to mandatorily offer a residential sprinkler system to all new construction home owners but bans enforcement of residential sprinkler ordinances requiring them in new 1 and 2 family structures.

We will attempt to ensure two issues are addressed in the bill; first, restrict the bill to only one and two family structures second, require light weight construction material is covered by sheet rock to enhance its fire rating to compensate for the absence of sprinklers.

Bill History: 3-17 Passed House and referred to the Senate Jobs Committee. This may get heard the week of the 28th.

2-21 HB 46 has passed the house and SB108 has passed the Senate, and now each chamber will review the others version, which are identical, so Jorgen sees little reason for any amendments.

2-14 Passed House

Residential sprinkler mandated offer/moratorium – After working with the House and Senate sponsors (Sen Schmitt and Rep John Diehl) we were able to come to an agreement with the homebuilders to ensure;

1. current law requiring all builders of new homes to mandatorily offer a residential sprinkler system to all new construction home owners remains;
2. the sunset is extended and not eliminated
3. the bill only applies to one and two family dwellings and townhomes as defined in the IRC
4. requires at least the 06 code fire rating if

sprinklers are not installed.

The Homebuilders were very good to work with and we had an agreement in a matter of 30 minutes, BUT this was made possible due to the work Chiefs Larry Boyle and Greg Brown did over the interim with the homebuilders and keeping a good working relationship with them, and the technical assistance Jason Webb provided during the discussions.

Hearing today General Laws Cmte. Let the committee members know your feelings.

Sprinkler Bills Scheduled for Hearing in House and Senate (HB90, HB46 & SB108)

The House General Laws Committee will hear two bills that extend the residential sprinkler ban indefinitely. We will testify encouraging the committee to add language ensuring that the bill is only limited to one and two family dwellings and that any non -sprinkled building that has light weight construction materials is covered with drywall. We are not certain how the various HBA associations feel about these additions despite their participation in drafting satisfactory language. The bill retains the mandatory offer provision.

The Senate will hear the bill on Wednesday at 1 p.m. in the Senate Jobs and Economic Development Committee. Below are the members of the House and Senate committees. Here is the message I believe we should relay to members;

1. this ban on sprinklers was never intended for multi family dwellings such as apartments, which have been required for many years to have sprinkler systems. This bill should be limited to one and two family dwellings
2. the bill should require drywall to cover light weight construction material. The

legislators need to hear why that is important however. Please explain that the 09 code without sprinklers is less stringent of a code than the 08 code, because the 09 code contemplates sprinklers being used and not carved out, therefore a suitable fire retardant substitute needs to be incorporated into the code to make up for the loss of the sprinklers.

SB 108 – Schmitt - Removes the expiration date for provisions of law concerning the installation of fire sprinklers in certain dwelling
HB46 Diehl (087) FIRE SPRINKLER SYSTEM INSTALLATIONS - Repeals a conflicting statute regarding the installation of fire sprinkler systems and removes the December 31, 2011 expiration date.

SB 108 -Schmitt- Removes the expiration date for provisions of law concerning the installation of fire sprinklers in certain dwellings.

This is the senate companion bill to HB 46 & 90

Bill History: 4-11 See above.

3-17 SB108 has passed the Senate, and passed out of the House General Laws Committee. It will be on the House debate calendar in the next few weeks.

3-11 heard in House General Laws Committee.

HB 46 has passed the house and SB108 has passed the Senate, and now each chamber will review the others version, which are identical, so Jorgen sees little reason for any amendments.

2-14 This bill is to be subsumed to HB 46 when presented in the senate.

HB600 Omnibus Public Safety Bill Passes House

Bill History: 5-2 The substitute specifies that a person will be guilty of the crime of endangerment of emergency personnel or emergency responder if, while in an active emergency zone as defined in the substitute, the person:

- (1) Exceeds the posted speed limit by 15 miles per hour or more;**
- (2) Commits a passing violation;**
- (3) Fails to stop for an active emergency zone flagman or emergency personnel or fails to obey erected traffic control devices or personnel in the active emergency zone;**
- (4) Drives through or around an active emergency zone by using any lane not clearly designated for that purpose;**
- (5) Physically assaults, attempts to assault, or threatens to assault an emergency responder in an active emergency zone with a vehicle or other item;**
- (6) Intentionally strikes, moves, or alters barrels, barriers, signs, or other devices erected to control the flow of traffic for any reason other than to avoid an obstacle, an emergency, or to protect the health and safety of any person; or**
- (7) Commits certain specified traffic offenses for which points may be assessed against a person's driver's license.**

Any person who commits the crime of endangerment of an emergency personnel or emergency responder will be subject to a fine of up to \$1,000 and have four points assessed against his or her driver's license in addition to any other penalty authorized by law. If the offense results in the injury or death of an emergency responder or emergency personnel, the person will be guilty of aggravated endangerment of an emergency responder and will be subject to a fine of up to \$5,000 for an injury and \$10,000 for a death with 12

points assessed against the person's license.

This bill also includes

(1) the expansion of infectious disease as described immediately below and;

(2) the prohibition of texting while driving, which is controversial, and will most likely need to be stripped from the bill to make it through the Senate.

-HB 615 -Holsman-Establishes the Civil Disaster Response Corps to be available for call-up by the Governor or General Assembly in the event of a state emergency.

Bill History:-02-24-11 H Read second time

HB664 House version of SB 235 received first round approval last week in the House. An amendment was added to expand the types of infectious diseases that qualify for "on the job" presumption illnesses. However, the legislature did add one qualifier, noted in yellow highlight below.

87.005. 1. Notwithstanding the provisions of any law to the contrary, after five years' service, any condition of impairment of health caused by any **infectious disease**, disease of the lungs or respiratory tract, hypertension, or disease of the heart resulting in total or partial disability or death to a uniformed member of a paid fire department, who successfully passed a physical examination within five years prior to the time a claim is made for such disability or death, which examination failed to reveal any evidence of such condition, shall be presumed to have been suffered in line of duty, unless the contrary be shown by competent evidence. In order to receive the presumption that an infectious disease was contracted in the line of duty, the member shall submit to an annual physical examination, at which a blood test is administered.

2. This section shall apply only to the provisions of chapter 87, RSMo 1959.

3. **As used in this section, the term "infectious disease" means the human immunodeficiency virus, acquired immunodeficiency syndrome, tuberculosis, hepatitis A, hepatitis B, hepatitis C, hepatitis D, diphtheria, meningococcal meningitis, methicillin-resistant staphylococcus aureus, hemorrhagic fever, plague, rabies, and severe acute respiratory syndrome.**

HB681 Walton Gray (081) - Specifies that the provisions requiring a partisan election and conducting a party primary prior to a general election will not apply to a candidate for school board or fire district office

HB769 Don Wells - Requires any contractor who engages in the installation or service of fire sprinkler systems to register with the State Fire Marshal

Bill History: 5-2 Heard before the Professional Registration & Licensing (H) – the rumor is the proponents will attempt to add this language to another bill that is moving through the process but we have not seen an amendment circulated yet.

4-25 Heard before the Professional Registration & Licensing (H) – the proponents want to add this bill to other licensing bills moving through the legislature, but there appears to be sufficient opposition in the Senate to block it in its current version

3/10/2011 - Referred: Professional Registration & Licensing (H)

HB917 Hinson - Requires all fire protection districts and municipal fire departments in St. Louis County to consolidate. Several districts have recently received requests for their operating budgets, and that request is related to several legislators in St. Louis County the creation of the St. Louis County fire protection district upon voter approval. I have talked to the sponsor and he wants to work with the districts diligently and work together if this bill moves forward. It has not yet been assigned to committee.

Bill History: 4-25 The bill, nor the study of how consolidation would affect st. Louis county FPD's and city departments, have made any progress.

4-18 See above.

4-11 Assigned to committee, and heard but tabled.

-HJR 8 -Koenig- Proposes a constitutional amendment replacing the individual and corporate income tax, corporation and bank franchise taxes, and sales and use tax with a fair sales tax on certain property and services.

3-17 This bill is on the Senate Debate Calendar.
3-12 This bill was passed out of committee this week. The
committee substitute ensures current restrictions which prohibit
a firefighter from running for another fire districts board.
3-7-11 A hearing was held in committee. The bill also would have
allowed a firefighter to run for political office including serving on
the board of another district. The sponsor amended the bill and
the current statutory prohibition will remain in place (firefighter
cannot run for another fire district board).

Bill History:-03-03-11 S Referred to Senate Committee on Senate-Small Bus./Insurance/Industry

SB 388 -Wasson- 3-17 Eliminates, combines, and revises certain state boards, commissions, committees, and councils, including eliminating the seven member Missouri Fire Education Trust Board and eliminates the requirement that money be distributed to the Fire Education Trust Fund from the Fire Education Fund, before money in the Fire Education Fund can be appropriated to the Division of Fire Safety. The act also eliminates the six member Missouri Fire Safety Advisory Board who advised the State Fire Marshal.

*But, the act adds four members to the Missouri Fire Education Commission and renames it the Missouri Fire Safety Education/Advisory Commission. This new commission shall administer the Missouri Fire Education Trust Fund.

This bill also has language that places the Private Fire Investigator Licensing program under the Private Investigator Board which is administered by Professional Registration. FSA wants to see this as a separate program under State Fire Marshal's office as originally written & passed. We are working with the sponsor of the bill to ensure the program remains in the State Fire Marshals office.

Bill History:- 5-2 This version has not moved, but HB454 did pass out of the House and was heard in the Senate. It will be voted out of committee most likely on Monday, May 2nd, and we will attach language, which keeps the instructor certification and education standards in the Division of Fire Safety.

4-25 Heard but not voted out

4-11 See above.

03-03-11 S Referred to Senate Committee on Senate-General Laws

4-4 The Governor states that this additional board will not be appointed and we will have to combine boards. The Sponsor wants to proceed as written, and he will place 2 fire investigators on the Private Investigator board making the composition 2 Fire, 3 Private, and 2 Public members. He will also place language in the bill that the two Fire spots have to be representatives of the IAAI and PFFIA.

Hearing should be scheduled this week.
